Re: Ex Parte Notice - IB Docket No. 02-10

Dear Ms. Dortch:

I am writing to request confidential treatment for an ex parte notice that was filed on behalf of Telenor Satellite Services, Inc. on June 21, 2005. The notice included a copy of a presentation that Telenor had made to members of the International Bureau staff on the preceding day, June 20.

In our ex parte meeting, James Lovelace, Keith Fagan and I, all on behalf of Telenor, met with John Martin, Jennifer Gorny, Howard Griboff, Scott Kotler, Lisa Cacciatore, Paul Locke, Tom Tycz, and Frank Peace, all of the International Bureau, on issues in the above-referenced docket relating to ESV coordination at C-band.

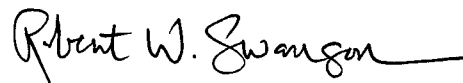

We discussed the importance of C-band for ESV communications, described Telenor's C-band ESV operations, and expressed our concerns regarding the enormous costs associated with conducting frequency coordinations along large portions of the U.S. coastline.

Included in that presentation was certain pricing information that we had obtained from a potential supplier. After filing the ex parte notice, we learned that our supplier considers that information proprietary and objects to its public disclosure.

We therefore respectfully request that our June 21 filing, in its unredacted form, be afforded confidential treatment. We will of course be willing to submit a redacted version of our presentation for the public file if the Commission deems that appropriate.

Please contact the undersigned with any questions.

Respectfully submitted,

Robert W. Swanson
